Central

Virginia

CENTRAL VIRGINIA offers a vibrant business environment with a highly qualified workforce in an ideal location with room for growth and expansion. A robust and growing defense and security sector in the region is in part due to the region's proximity to Washington, D.C. and to the significant presence of the U.S. Defense Intelligence Agency (DIA) and the National Ground Intelligence Center (NGIC) at Rivanna Station.

Demonstrated Record of Success

- For more than half a century, the **National Ground Intelligence Center** has had a significant presence in the area and employs more than 1,400 service members and civilians. Also housed at Rivanna Station, the **Defense Intelligence Agency** employs over 850 people.
- **North Fork - A UVA Discovery Park** is located just a mile from Rivanna Station and has become home to many intelligence-gathering government contractors such as SAIC, CACI, SRC, and Battelle.
- **Aerojet Rocketdyne** is a world-recognized aerospace and defense leader, providing propulsion and energetics to its space, missile defense, tactical missile, and armaments customers throughout the world.
- Serving the defense aerial, ground-based, and naval markets, **EURO-COMPOSITES** is the general supplier of KEVLAR honeycomb for the Joint Strike Fighter (F-35) of Lockheed Martin.
- **Northrop Grumman** provides safe, efficient, and reliable navigation solutions for the commercial and defense maritime industries.
- **Eiden Systems'** high quality IT consulting has earned the firm numerous Department of Defense honors including the Commanders Award, Excellence.gov Award, and Medallion Award.
- **Battelle** is the world's largest nonprofit R&D organization, and is recognized for expertise in national security contract research.
- **CACI Enterprise Solutions** is one of the many defense contractor branch locations that have been able to capitalize on the migration of government agencies to the Central Virginia region.
- **MRI Global** is an independent, nonprofit organization performing contract research for government and industry in a variety of areas, including national security and defense.
